

the King Kennedy Project. The program was to provide jobs for men getting out of jail. A new beginning, new life. Friday they bussed us down there not so that we could hear about how awful things were, but to hear how we were supporting the work of defending the poor.

Today, the elderly do not have thier doors broken down in the project because men in red coats walk the ~~akk~~ halls. And cars are not regualy attacked there on Woodland boulevard because men in Red coats scare away the thieves. And in the ~~ma~~ project empty rooms are now boarded up so that drugs can no longer be dealt in them because men in red coats do the boarding and see ~~th~~ <sup>twelve</sup> they stay that way. And the elementray school that for ~~xxx~~ years had no recess outside now holds recess each day, protected by the men in the red coats.

Dick Seering, head of Lutheran Metopolitan Ministries along with Hallel Jones, a former prison inmate put that program together. God has begun to anwer the cries of the people. ExOffenders

Last year 200 ex prisoners entered the Community Reentry Program. Three of the 200 went back to jail.

Through our contributions to Laos we support this program and many others. We fight for our neighbors in need, God answers thier cry through us. Thanks be to God.
